

Your Detailed Week Plan (Workout + Food + Skin + Career)

Based on your rough routine (5:30 wake, park workout, office schedule) + the earlier plans. This version keeps your exercise timing strong and makes skincare safe (no harsh daily scrubbing).

Reality check for weight goal

80 kg to 50 kg in 2 months (30 kg in 8 weeks) is not safe. A healthy pace is 0.5-1 kg/week. So aim for about 72-74 kg in 8 weeks, then 55-60 kg in 6-8 months. Slow loss protects skin, hair, mood, and hormones.

Weekday daily routine (Mon-Fri)

Use this as your default weekday template. Move timings by +/- 15 minutes when needed, but keep the order.

Time	What to do (your flow)
5:30	Wake, prayer/motivation, warm water (lemon optional), freshen up.
5:35-5:55	Pre-workout medicine + glucose water (as per your doctor). Light mobility 3-5 min.
6:00-7:30	Park: run 20-30 min + strength workout 60 min (split below). Finish with 5-8 min stretching.
7:30-8:20	Return home, bath. Body oil/moisturizer (focus stretch marks). Basic face skincare.
8:20-9:20	Breakfast + pack lunch/snacks + soak chana/dry fruits for next day + quick room reset (10-15 min).
9:20-9:45	Leave for office. (You can walk 1-1.2 km as part of steps.)
10:00	Office start. Black coffee optional. Small dry fruits portion.
13:00-14:00	Lunch + dahi + 15-20 min walk. Medicines set 2 (15 min gap). 10-15 min reading/notes.
17:00	Evening drink: black coffee or nimbu pani. Avoid sugar.
19:00-20:00	Commute home + quick grocery pickup (2-3 days/week).
20:15-21:00	Rest 10-15 min, cook light dinner, eat. Wash utensils (quick clean).
21:00-21:30	Medicines set 3 (15 min gap).
21:30-22:45	Focus block: DSA/job apply/project (theme by day).
22:45-23:15	Night skincare (safe routine below) + prep for morning (clothes, lunchbox).
23:15-00:00	10 min meditation + light reading. Sleep.

Medicines system (3 times/day, 15-min gaps)

Keep 3 alarms for each set: Med-1, +15 min Med-2, +15 min Med-3. Carry a small pill case for office. Follow your doctor instructions if any medicine must be with food.

Workout plan (strong daily timing)

You are already doing a great amount: run 20-30 min + strength 60 min. Keep intensity smart to avoid injury.

Weekly workout split (repeat every week)

Day	Park workout (6:00-7:30)
Mon	Legs + stairs: squats, lunges, glute bridges, calf raises + 5-10 min stairs.
Tue	Upper body + abs: push-ups (modified OK), rows (band), shoulder presses + planks.
Wed	Running intervals + yoga: 400m/800m sets (easy pace) + 15-20 min mobility/yoga.
Thu	Core + belly focus: plank series, dead-bugs, leg raises, back extensions + easy run.
Fri	Full body + skipping/cycle: circuit (legs + push + pull + core) + 10-15 min cardio.
Sat	Fun cardio: badminton/dance/swimming + full-body stretch.
Sun	Recovery: light walk 30-45 min + long stretching + 10 min meditation.

Daily targets

- Steps: 8,000-10,000/day (your walk to office helps).
- Protein: aim 60-80g/day (paneer/tofu/curd/dal/chana/rajma/soy).
- Sleep: target 6-6.5 hours consistent; add 15-20 min power nap if needed.

What to avoid (injury + loose skin)

Avoid crash dieting, skipping strength training, and doing high-impact daily with no recovery. If pain persists, reduce volume for 3-5 days and do the Minimum Viable Day: 20 min walk + stretching.

Vegetarian fat-loss food plan (glow + energy)

This plan supports fat loss without damaging skin or hair. Keep dinner light and protein high.

Daily structure

Empty stomach (morning): warm water (lemon optional) + 5 soaked almonds + 2 walnuts.

Breakfast: high protein option (below).

Mid-morning: 1 fruit.

Lunch: dal + sabzi + salad + curd + 1-2 rotis (or small rice).

Evening snack: roasted chana/makhana OR sprouts OR coconut water.

Dinner: low carb, high protein (below).

Breakfast rotation (pick 1/day)

- Mon: Moong dal chilla (2) + green chutney + curd
- Tue: Vegetable oats + 50g paneer
- Wed: Daliya (veg) + curd
- Thu: Besan chilla (2) + salad
- Fri: Greek yogurt/curd + chia/flax + small fruit
- Sat: Sprouts chaat + 1 fruit
- Sun: Poha (less oil) + peanuts + curd

Dinner rotation (keep light)

- Mon: Dal + sabzi + 1 roti + salad
- Tue: Paneer bhurji/tofu bhurji + salad
- Wed: Vegetable soup + sprouts bowl
- Thu: Khichdi + curd (light)
- Fri: Stir-fry veggies + tofu/paneer (no heavy gravy)
- Sat: Chole/rajma (small) + salad (earlier dinner)
- Sun: Mixed veg + curd + 1 roti (early)

Office add-ons (help you stay full)

- 1 small box roasted chana or makhana
- 1 fruit
- Water bottle (2-3 refills/day)
- Keep sugar tea/biscuits as rare treats, not daily.

Clear skin plan (underarms + stretch marks + tan)

This version is safer than daily harsh scrubbing. Most DIY (lemon, sugar, baking soda) can irritate and make darkness worse.

1) Face skin - simple daily routine

Morning: gentle face wash -> moisturizer -> sunscreen SPF 30+.

Night: cleanse -> moisturizer. If you use actives (niacinamide/retinol), use only at night.

2) Underarm darkness (safe schedule)

Main causes: friction, shaving irritation, sweat + dead skin. If darkness is thick/velvety, check fasting sugar once (sometimes related to insulin resistance).

Day	Night routine (underarms)
Daily	Aloe vera gel (thin layer) OR a gentle moisturizer (keep area dry).
Mon + Thu	Gentle exfoliation: lactic acid 5% lotion (very small amount).
Tue + Fri	Niacinamide (4-5%) lotion/serum (if it suits).
Avoid	No daily scrubbing, no lemon + sugar daily, no baking soda. Patch test everything.

3) Stretch marks (stomach) - fade plan

Stretch marks usually fade 60-80% with consistency. Slow weight loss + hydration + massage help.

Daily: body oil or thick moisturizer after bath + 2-3 min massage on stretch mark area.

3 nights/week: retinol body lotion/cream (if not pregnant; stop if irritation). Follow with moisturizer.

Nutrition support: protein daily + vitamin C fruit (amla/guava/orange).

4) Tan on arms/face - remove and prevent

Non-negotiable: sunscreen on face + exposed arms every morning. Reapply if you are in sun.

2x/week pack: besan + curd (or milk) + pinch turmeric for 10-12 min.

1x/week pack: tomato + curd for 8-10 min.

Avoid rubbing ice directly for long; wrap in cloth.

Checklist: what to keep / what to buy

Tick what you already have. Buy only what you are missing. Start simple.

A) Fitness essentials

- ☐ Good running shoes
- ☐ Yoga mat
- ☐ Resistance band (for back/rows)
- ☐ Water bottle (1L)
- ☐ Pill case (for office medicines)
- ☐ Lunchbox + 2 small snack boxes

B) Skincare essentials (safe basics first)

- ☐ Gentle face cleanser
- ☐ Moisturizer (face)
- ☐ Sunscreen SPF 30+ (face + body)
- ☐ Aloe vera gel (pure)
- ☐ Body moisturizer or body oil (almond/coconut/bio oil)
- ☐ Vitamin E capsules (optional)
- ☐ Niacinamide (4-5%) for dark areas (optional)
- ☐ Lactic acid 5% body lotion (2x/week) (optional)
- ☐ Retinol body lotion/cream (3x/week) (optional; night only)
- ☐ Besan + curd (for weekly packs)

C) Food staples (vegetarian fat loss)

- ☐ Oats, poha, daliya
- ☐ Moong dal (for chilla), besan
- ☐ Chana/rajma (for weekend cook)
- ☐ Paneer or tofu, curd/dahi
- ☐ Roasted chana / makhana
- ☐ Chia/flax seeds (optional)
- ☐ Fruits: apple/guava/papaya/banana
- ☐ Salad veggies: cucumber, carrot, tomato, lemon
- ☐ Spices: turmeric, jeera, dhania

D) Weekly tracking (optional but powerful)

- ☐ Weighing scale (or measure waist with tape)
- ☐ Notebook for habit tracker

- ■ Simple calendar reminders/alarms for medicine sets

Mini rules to protect your skin

- No daily harsh scrubs on face/underarms.
- No lemon + sugar daily (can burn/irritate).
- Patch test any new product for 24 hours.
- If irritation happens: stop actives for 5-7 days, use only moisturizer + sunscreen.
